Summary of Transfer Credit

This summary of transfer credits lists the acceptable transfer courses from other institutions you have attended. It reflects credit from all official documents received as of the last External Data Update date. Please note that not all credit may meet degree requirements; this will be determined by the appropriate area within the department of your major. Institutional credit awarded is subject to change upon receipt of official test scores. All attempted course work is a part of your permanent academic record. All grades are computed into your cumulative grade point average (GPA) with the exception of grades earned in non-college level courses, and those courses for which grade forgiveness has been awarded, indicated by a "T". An "R" indicates the last accepted attempt included in the GPA. Transfer work status may not show as received until after the start of your first term at UCF. For detailed information concerning transfer credit and grade forgiveness policies, please refer to the Undergraduate Catalog.
